Title: (Name of Atfal) Fundraiser for Uganda School Project

Why are you raising money?

I am raising money towards the funding of a school in Uganda with Humanity First UK. They are an international non-profit NGO that focuses on humanitarian and development projects across the world.

The money will be used to fund building infrastructure, set up for six classrooms and an admin room. All the funds that are raised will go towards the development of the school.

For more information on the project, visit the following link:

Select a URL for your webpage, for example: rohan-uganda-school-project-26

Add a cover photo or video (download the below and add to your page):

After this you should be able to launch your page and start fundraising! Please get in touch with your Regional or Local Nazim to inform them you have started your campaign and if you need any assistance.
